Built-in oven features

Installation diagram for built-in gas oven
(600 VG / 700 VG / 800 VG / 900 VG)

For proper operation of the gas oven, make sure there is sufficient cooling air circulation inside the compartment. Installation must be done according to Figure A or Figure B.

How to specify the product colour and finish

To specify the desired colour, at the end of the code add a slash “/” and the colour code:

Es: H70CV => H70CV/M (graphite-mat) - PN90E3 => PN90E3/BL (midnight blue)

FINISHES

On the Nostalgia (Classic) series in the Professional and Built-in lines and on the Majestic line, the standard finishes are brass. Stainless steel (chrome) finishes can be requested at no additional cost by adding a further code of “X” to the product code with colour.

For example:
600NE3/RB = Burgundy with brass finish
600NE3/RBX = Burgundy with chrome stainless steel finish

Burnished finishes can be requested, when available, with an additional cost by adding a further code of “Y” to the product code with colour.

For example:
600CE3/A = Oatmeal with brass finish
600CE3/AY = Oatmeal with burnished finish
**Colours**

- I = STAINLESS STEEL
- AV = OATMEAL
- RM = COPPER
- OA = ANTIQUE BRASS
- M = GRAPHITE-MAT
- RB = BURGUNDY
- R = BRIGHT COPPER
- RA = ANTIQUE COPPER
- B = WHITE
- VS = EMERALD GREEN
- BL = MIDNIGHT BLUE
- A = ANTIQUE WHITE
- O = BRIGHT BRASS

**“Classic” finishes**

- Standard brass knobs and handles
- Chrome knobs and handles on request
- BURNISHED knobs and handles on request WITH ADDITIONAL COST (where available)

**“Design” finishes**

- Steel knobs and handles
GENERAL FEATURES

- High density insulation
- Tangential cooling fan
- Internal light
- Triple glass cold door (EN60335-2-6-11.101)

645 E4 - COMPACT ELECTRONIC OVEN 645 - 400°C

Semi-automatic like those in bars, it obtains a perfect espresso from coffee beans. The water tank can be removed for better hygiene. Also, it produces steam for quickly heating water for tea or milk for cappuccino or even for vin brulé.

- Adaptor kit for Lavazza Espresso Point®, Illy®, Nespresso® and other coffee pods.
- Can be used with pods for other beverages such as ginseng, flavoured coffees, tea, tisanes, etc.

**645 ES - PROFESSIONAL ESPRESSO MACHINE**

**CHARACTERISTICS**

- Customizable parameters: grind and amount of coffee, water and steam temperature, water hardness.
- Uses both whole bean and ground coffee.
- Steam generator for cappuccino, tea, tisanes.
- Stainless steel coffee grinder.
- Heating time about 2 min.
- Water tank: 2.5 l.
- Coffee tank: about 350 g.
- Boiler power: 1000 W.
- Steam boiler power: 600 W.
- Mill power: 100 W.
- Maximum absorption: 1700 W.

Deep freezing is the process that quickly lowers the temperature of the dish up to -20°C at the core. Rapid lowering of the temperature helps maintain all of the organoleptic characteristics of the food subject to the treatment without using preservatives or additives.

It is a professional tool that is much appreciated by great Chefs who use it on a daily basis with great satisfaction. It increases food quality, optimizes purchases, and reduces waste.

BC645 - TEMPERATURE BLAST CHILLER

CHARACTERISTICS
- 40 litre AISI 304 stainless steel chamber
- 3 grills
- Interior fan
- Display TFT full touch
- Blast chiller function: from oven to refrigerator (+4°C)
- Freezing function: from room temperature to -20°C
- Quick cooling
- Bottle cooling function
- Defrost function
- Proofing function

CONSUMPTION
- Maximum absorption 300 W

COLOURS

STAINLESS STEEL
Used by Michelin star chefs, vacuum packing is a very simple yet useful process. A pump removes the air in the package that contains the product. This removes the oxygen from the bag, stopping the proliferation of microorganisms, bacteria, and mould.

- Lengthens storage time and improves hygiene. Dishes can be stored and tasted even days later, safely and without losing flavour.

**AVM630 - PROFESSIONAL VACUUM PACKER**

**CHARACTERISTICS**
- AISI 304 stainless steel
- Pump 8 m³/h
- Volume of empty chamber 10 l
- Max vacuum bag size 25 x 35 cm
- Cycle time 33'' - 35''
- Maximum vacuum 0- 10 millibar
- 4 preset programs
- Oil pump dehumidification cycle
- Replace oil notification

**CONSUMPTION**
- Maximum absorption 600 W

ESPRESSO COFFEE MACHINE • BUILT-IN • COUNTRY

ES645C

GENERAL FEATURES

- Semi-automatic like those in bars, it obtains a perfect espresso from coffee beans. The water tank can be removed for better hygiene. Also produces steam for quickly heating water for tea or milk for cappuccino or even for vin brulé.
- Adaptor kit for Lavazza Espresso Point®, Illy®, Nespresso® and other coffee pods.
- Can be used with pods for other beverages such as ginseng, flavoured coffees, tea, tisanes, etc.

645 ES - PROFESSIONAL ESPRESSO MACHINE

CHARACTERISTICS

- Customizable parameters: grind and amount of coffee, water and steam temperature, water hardness.
- Uses both whole bean and ground coffee.
- Steam generator for cappuccino, tea, tisanes.
- Stainless steel coffee grinder.
- Heating time about 2 min.
- Water tank: 2.5 l.
- Coffee tank: about 350 g.
- Boiler power 1000 W
- Steam boiler power 600 W
- Mill power: 100 W
- Maximum absorption 1700 W

### OUTDOOR BUILT-IN BARBECUE

**HBBQ100**

**GENERAL FEATURES**
- Outdoor built-in barbecue
- Made of AISI 315 stainless steel, it is suitable for outdoor or seaside installation. Resistant to humidity and salty air. Ideal for garden or veranda grilling to enjoy life outdoors.
  - Side controls
  - 4 gas burners (max 14 kW)
  - Front grease tray
  - Internal grease tray
  - Natural gas or LPG

**HOB FEATURES**
- 1 cooking grill
- 1 fry top plate
- Electric battery ignition

### OUTDOOR SPACE-SAVING BARBECUE

**HSBBQ66**

**GENERAL FEATURES**
- This (patented) barbecue is revolutionary since it has two positions: open for use and closed for periods of inactivity. It hangs on the wall with a special bracket and tilts. This makes it the ideal solution for those who do not have a lot of outdoor space such as terraces or balconies. Made of stainless steel for outdoor installation. Ideal for garden or veranda grilling to enjoy life outdoors.
  - Front controls
  - 3 gas burners (12 kW each)
  - Stainless steel back/lid
  - Large cooking area 640 mm x 480 mm
  - Natural gas or LPG

**HOB FEATURES**
- 1 cooking grill
- 1 smooth/ridged reversible cast iron plate
- Piezoelectric ignition

### COLOURS
- STAINLESS STEEL
Optional Extras

LADLE HOLDER PANEL
Stainless steel back with ladle holder bar.
Perfect against splashes and hot pans.

GRILL UNDER HOOD
Plate grill under hood for infrared lamps to keep food at the proper serving temperature.
Only AM hoods

CHIMNEY COVER EXTENSION
80 cm hood chimney extension for installation with high ceilings.

FILTERS FOR HOOD
Active carbon filters for installation with air circulation

HOOD REMOTE
Remote control for exhaust hoods.
Suitable for all series.
This innovative product is ideal for those who wish to create a custom hood with top grade mechanics. Combining a frame and the motor with the customer’s housing achieves a high performance, freestyle hood. The motor can be placed on the wall, ceiling or side depending upon the position of the flue. Important: the housing must be hermetic inside to ensure suction only through the frame filters.

### IAG - BUILT-IN EXHAUST UNIT

**GENERAL FEATURES**
- Automatic light for filter cleaning
- Chimney outlet hole 15 cm
- Maximum power: 355W
- Stainless steel frame AISI 304
- Professional labyrinth filters in stainless steel
- Suction 890 m3/h
- Remote control ready (as an option with additional cost)
- Four speed controls (1-2-3-Intensive)
- Available in suction or filtering version
- Front LEDs

**MOTOR SPECIFICATIONS**
- Exh motor for IAG hoods with cabling.
- Suction 890 m3/h
- Motor weight 5.5 kg

**COLOURS**

**STAINLESS STEEL**

* To complete the code for the chimney cover extension, instead of the ellipsis “...”, enter:
  01 for Antique White - 08 for Stainless Steel - 10 for Graphite / Mat - 52 for Burgundy - 54 for Blue - 56 for Green

** Only Stainless Steel
Innovative hood, with a professional appearance and performance, that enhances the cooking area. The large inclined surface and labyrinth filters form barrier that is almost impenetrable by grease and are easy to clean as they are entirely in stainless steel. Easy to remove, they can also be washed in the dishwasher.

**AGQ - WALL HOOD**

* To complete the code for the chimney cover extension, instead of the ellipsis “...”, enter:
  01 for Antique White  -  08 for Stainless Steel  -  52 for Burgundy  -  54 for Blue  -  56 for Green

**ACCESSORIES AND OPTIONS**

- A/301/01 HOOD REMOTE
- G/076/09 FILTERS FOR HOOD - Active carbon filters for installation with air circulation
- A/092/23 GRILL UNDER HOOD - Plate grill under hood for infrared lamps to keep food at the proper serving temperature

---

Exclusive hood designed to match with the Majestic line. It is 60 cm deep to align with the greater depth of the Majestic blocks. The hood is available in various colours and also has a stainless steel frame like the cooker. Also features infrared lamps to be used as food warmers, as in commercial settings.
